CAKE TIPS & ADVICE

- **READ THE RULES.**
- **Cake boards:**
 - Make sure the board on which you display the cake is appropriately sized.
 - Color and design shows off and works with the overall cake design.
 - Attach cleats or feet to the bottom of your board so you can get your fingers under it and pick it up without messing up your cake or border.
- **Cake Base or Dummy:**
 - If you use a rice cereal base, cover it with royal icing to smooth it out before applying fondant.
 - Let rice cereal harden a bit before decorating or add a few candy melts so it dries hard.
 - Rice cereal, Styrofoam Dummies, or other solid base is highly recommended as real cake shrinks and within a few days the cake will look shriveled.
- **Fondant**
 - Smooth fondant as much as possible; you do not want marks, fingerprints, smudges, dents, or other demarcations in its surface.
 - Take extra time to get the fondant smooth. Reapply if needed.
 - Be sure to remove fondant if it begins to dry out and you get "elephant skin", take it back off the cake and knead some solid Crisco shortening into it, then reapply.
 - Remove dents or finger marks in your fondant by using a piece of extra fondant rolled up into a ball to gently buff away the stray marks.
- **Gumpaste Flowers:**
 - Thin the edges of the petals for a natural look.
 - Always finish the backs of your flowers - yes the judges do look there.
 - Use dusting colors to add shading and highlights.
 - Dry your Gumpaste flowers and/or petals so that they have movement.
 - Always wrap wires with floral tape.
- **Piping:**
 - Practice your piping before piping on the cake.
 - Shapes like shells and ball borders should be a consistent size and shape.
 - Remove points from ball shapes with a damp brush.
- **General Information for making a better competition entry:**
 - Be as detailed and technically precise as you can.
 - Check out <http://www.oregonices.org> for more information on competitions, cakes, and confections.
