## SWINE BREED POLICIES

1. All General and Special Rules will be enforced.
2. All rules and regulations of the respective breed and/or show association will be enforced as applicable.
3. **TAMPERING WITH LIVESTOCK** — Artificial coloring of any animal or any artificial means of removing or remedying physical defects of conformation in exhibition animals, such as lifting or filling under the skin, will be considered as fraud and deception. All animals giving evidence of such treatment will be barred from exhibition at the State Fair. If any animal is found by the official veterinarian to have been tampered with as previously described, it shall be disqualified from competition. All prize money that has been won at the current Oregon State Fair by the exhibitor on any animal or animals so disqualified will be forfeited. The finding of the official veterinarian as to whether or not any animal has been improperly tampered with shall be final and conclusive. The Oregon State Fair will not be responsible for the consequences, direct or indirect, of any animal or exhibitor being so disqualified or debarred from showing.
4. All swine exhibitors must remain in the barn until released by the livestock superintendent. If all animals belonging to an exhibitor are sold either in the auction or by private treaty, the exhibitor and displays must be in place until officially released by the livestock superintendent. Failure to follow these rules will result in penalties which include forfeiture of premiums and may result in being barred from exhibiting at the State Fair.
5. On arriving at the Fairgrounds, all swine will be checked for hog lice and eggs by Division Superintendent (Open, 4-H and FFA) or person designated by the Superintendent, and the attending State Fair Livestock Veterinarian. Any animals found to have lice or eggs will be quarantined to their immediate pen and will be sprayed or dusted to control such by owner, and owner will take any other measures as directed by the Swine Coordinator. No swine will be allowed in the show or sale ring that shows signs of lice or eggs.
6. **Upon arrival to the fairgrounds, the health of all swine will be visually checked by a state fair approved veterinarian during the offloading process.**
7. Any swine exhibitor who does not cooperate with the Swine Superintendent, Animal Competitions Coordinator, Oregon State Fair Veterinarian and management of Oregon State Fair on the control of hog lice, will be asked to immediately remove their animals from the Fairgrounds.
8. A breed that falls into the category of “All Other Breeds” and which shows at least 15 animals from three (3) or more exhibitors will have its own show the following year.
9. Breeds failing to show a minimum of 15 animals from three (3) or more exhibitors will not receive premium money for the following year. Exhibitors may receive premiums by showing in the All Other Breeds division, or breed associations may choose to continue their show without premium support.
10. Exhibition animals (not entered in AOB class or breed class) must complete online entry registration, and pen space will be allowed if pens are available.
11. All exhibitors showing a boar must have a boar board in their possession while in the show ring.
12. All boars must be under the control of the Exhibitor at all times.
