- Use and Choice of Color: application, color balance and continuity of color (up to 5 points)
- Presentation: board size and covering complement the decorated item (up to 5 points)
- Creativity: display, design composition (up to 10 points)
- Interpretation of Original Idea: no copyrighted or copied designs (up to 5 points)
- Difficulty of Technique (up to 5 points)
- Neatness (up to 5 points)
- Precision: use of tips, cutters, etc. (up to 10 points)

COMPETITION TIPS & ADVICE

- **READ THE RULES.**
- **Cake boards:**
 - Make sure the board on which you display the cake is appropriately sized.
 - Color and design shows off and works with the overall cake design.
 - Attach cleats or feet to the bottom of your board so you can get your fingers under it and pick it up without messing up your cake or border.
- **Cake Base or Dummy:**
 - If you use a rice cereal base, cover it with royal icing to smooth it before applying fondant.
 - Let rice cereal harden a bit before decorating or add a few candy melts so it dries hard.
 - Rice cereal, Styrofoam Dummies, or other solid base is highly recommended as real cake shrinks and within a few days the cake will look shriveled.
- **Fondant**
 - Smooth fondant as much as possible; you do not want marks, fingerprints, smudges, dents, or other demarcations in its surface.
 - Take extra time to get the fondant smooth. Reapply if needed.
 - Be sure to remove fondant if it begins to dry out and you get "elephant skin"; take it back off the cake and knead some solid Crisco shortening into it, then reapply.
 - Remove dents or finger marks in your fondant by using a piece of extra fondant rolled up into a ball to gently buff away the stray marks.
- **Gumpaste Flowers:**
 - Thin the edges of the petals for a natural look.
 - Always finish the backs of your flowers – yes, the judges do look there.
 - Use dusting colors to add shading and highlights.
 - Dry your Gumpaste flowers and/or petals so that they have movement.
 - Always wrap wires with floral tape.
- **Piping:**
 - Practice your piping before piping on the cake.
 - Shapes like shells and ball borders should be a consistent size and shape.
 - Remove points from ball shapes with a damp brush.
- **General Information for making a better competition entry:**
 - Be as detailed and technically precise as you can.
